

Chairman Powell,

Those of us who remember what free airwaves were about would like to ask you to please not increase the amount of newspapers and radio stations and TV stations and Satellite stations to the five largestest corporate Pigs. We the people can all ready tell a difference in how we get information about what is going on in the world and it is not good. I for one am sick and tired of the media choosing what I will listen to and watch. I am tired of the FCC'S loose and uneven fineing, of stations that have broken the rules on so called profanity. It is time for you to do your job in protecting the people and not the corporations
Thank you, Cecilia Nall
